Re: Permit Applicability Determination
EQT Production Company
OXF-45 Pad
Determination No. PD17-020
Plant ID No. 017-00044

Dear Mr. Bosiljevac:

It has been determined that a modification will be required under 45CSR13 for your proposed installation of a 400 barrel condensate tank. This determination is based on information included with your permit determination form dated March 14, 2017, which indicates that the change will directly affect a permit condition in permit G70-A133. A modification will be required under 45CSR13 to make the requested change, due to the change from a G70-A to a G70-D registration.

The appropriate application forms which need to be completed can be obtained from the WVDEP website at www.dep.wv.gov/daq/. Submit the completed forms, appropriate permit application fee, and any other applicable fees to the above address. If you should have any questions concerning which forms are required or have trouble downloading them, call the Permitting Secretary at (304) 926-0499 ext. 1250. Please address this matter as soon as possible to ensure expediency of the permit review process.

Should you have any questions, please contact the undersigned engineer at (304) 926-0499 ext. 1223.

Sincerely,

Jerry Williams, P.E.
Engineer
